Make the right choice. Stay PBA!

Don't buy the hype, the future is bright. Better pay, benefits and work conditions are on the horizon.

Yes, we've been through some tough times. We have suffered the worst recession in our lifetimes and yet managed to preserve benefits, while avoiding drastic cuts and layoffs.

No other labor organization has been winning major concessions at the bargaining table anywhere in Florida. Any group that claims otherwise is not being straight with you.

Looking ahead, we see a bright future for the Orange County Sheriff's Office. Based on PBA's political influence and long standing relationships with the County Commission, we see greater opportunities for increased pay and benefits going forward.

You have a lot at stake in the union election: your legal defense, on the job representation, and the size, strength and influence of the organization that represents Orange County Deputies and Supervisors.

A brighter future is just around the corner. Make the right choice. Stay PBA.
